

VIKRAM SINGH RATHORE

SENIOR BACKEND ENGINEER | TECH LEAD | NODE.JS & PHP/LARAVEL

+91-7014463427 | vikramrathore66223@gmail.com | linkedin.com/in/vikram-singh-rathore-999bb7134 | Udaipur, India

PROFESSIONAL SUMMARY

Senior Backend Engineer and Tech Lead with 8+ years of experience delivering production systems across **Node.js/Express.js** and **PHP/Laravel**. Strong background in REST API design, backend architecture, MySQL/RDS optimization, authentication and authorization, payment workflows, AWS deployments, ERP/e-commerce platforms, and third-party integrations. Owns delivery from requirements and technical design through implementation, production release, troubleshooting, and team mentoring.

CORE TECHNICAL SKILLS

Backend: Node.js, Express.js, JavaScript, PHP, Laravel, REST APIs, Webhooks, Microservices

Data: MySQL, Amazon RDS, Prisma ORM; working exposure to MongoDB

Cloud & Production: AWS EC2, S3 and RDS, Linux, PM2, Apache, Git

Security & Payments: OTP authentication, JWT, RBAC, Razorpay, GST workflows

Integrations: SAP ERP, Zendesk, WhatsApp/SMS, POS, E-Invoice, E-Waybill, Gemini and OpenAI APIs

Additional: Next.js, React, Python, FastAPI, SQL, Jira

PROFESSIONAL EXPERIENCE

Tech Lead / Team Lead - Backend & Full Stack

Gyanitalk Technologies (OPC) Private Limited

Feb 2025 - Present

Udaipur, India

- Lead end-to-end engineering of an astrology and consultation platform, covering requirement analysis, backend architecture, API design, implementation, production deployment, and cross-functional delivery.
- Build and maintain backend services using Node.js, Express.js, PHP/Laravel, Prisma ORM, and MySQL within a mixed-service architecture.
- Designed secure authentication and authorization flows using OTP login, JWT tokens, and role-based access control for customer and operational workflows.
- Implemented Razorpay payment flows, webhook handling, GST calculation, and automated invoice generation for consultation transactions.
- Built a Python/FastAPI service that processes structured Kundli data and prepares context for Gemini and OpenAI-powered AI Astrologer workflows.
- Improve API and database performance through query review and Prisma/MySQL optimization; mentor developers and coordinate delivery with product, frontend, and QA teams.

Senior Backend Developer

Wooden Street Furnitures Pvt. Ltd.

Apr 2022 - Jan 2025

Udaipur, India

- Developed and maintained backend systems for high-volume e-commerce and ERP workflows using Laravel, Node.js, MySQL/RDS, REST APIs, and AWS infrastructure.
- Delivered APIs for product catalog, cart, checkout, order management, manufacturing, inventory, accounts, reporting, and order tracking.
- Integrated SAP ERP, Zendesk, payment gateways, WhatsApp/SMS services, POS systems, GST E-Invoice, and E-Waybill workflows.
- Improved database performance and production stability through SQL query optimization, indexing, and backend troubleshooting.
- Worked across business-critical modules and integration boundaries to translate operational requirements into reliable backend workflows.

Senior Backend Developer

Cognus Technology

Aug 2018 - Mar 2022

Udaipur, India

- Developed backend APIs and authentication systems for multiple client applications using Node.js, PHP/Laravel, and MySQL.
- Implemented integrations with payment gateways, SMS providers, and analytics services, including API contracts and error-handling workflows.
- Optimized database queries and API endpoints and collaborated with frontend engineers on clear, maintainable API contracts.

SELECTED ENGINEERING WORK

Astrology, Consultation & AI Platform

2025

Node.js, Express.js, Laravel, Prisma, MySQL, FastAPI

- Delivered consultation, authentication, payments, GST invoicing, and AI-assisted astrology workflows across Node.js, Laravel, and FastAPI services.
- Integrated Gemini and OpenAI services through structured context preparation while keeping core platform workflows in the broader backend ecosystem.

E-Commerce & Multi-Module ERP

2022 - 2025

Laravel, Node.js, MySQL/RDS, AWS, REST APIs

- Built and enhanced connected commerce and ERP workflows spanning catalog, checkout, orders, manufacturing, inventory, accounts, reporting, and external systems.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering

Rajasthan Technical University - SS College of Engineering

2013 - 2017

Udaipur, India
